STRENGTH IN *Beauty*

COLLECTION

Kajaria Laminates has handcrafted this exclusive range keeping in mind the beautiful-yet-strong decor landscapes, which will offer an unforgettable experience for you. This collection of immaculate designs and textures are bound to stimulate one's design senses. The inherent strength of these beautiful laminates is derived from impeccable features and their beauty is brought to life through these amazing designs.

TOWARDS NEWER HEIGHTS

Kajaria is the largest manufacturer of ceramic/vitrified tiles in India with an annual capacity of 70 million square meters, distributed across eight plants. All of Kajaria's manufacturing units are equipped with latest modern technology, making their products one of the most desirable building materials in this industry. Founded 32 years ago, Kajaria has since then grown stronger with its hard work, innovations and patronage from its discerning customers. With the Indian consumers' rapidly growing appetite for quality building materials, Kajaria believes in expanding its horizon continuously.

After championing the tiles segment, Kajaria entered the bathware category with Kerovit. Thereafter, the company forayed into the category of wood panel products in 2018. And now, after understanding and catering the wood panel customers across the length and width of the country for more than 3 years, it is set to make a mark in the field of laminates.

The inspiration behind every Kajaria product is to exceed customer expectations and market demands while conforming to the finest standards of quality, service and innovation. Keeping up with the same objective, the company had established Kajaria Plywood Pvt. Ltd. (A subsidiary of Kajaria Ceramics Ltd.). This venture has been offering various wood panel products under the brand name of KajariaPLY. With an unwavering commitment towards quality, the brand has strived to adopt the finest standards of the modern times. Be it technology or research, it has set its sight on all these factors adopting the optimal production techniques in order to deliver the right quality of its products, making them customer-centric.

A NEW CHAPTER IN BEAUTIFUL INTERIORS

Driven by the inherent values of constant innovation & customer centricity, Kajaria Laminates is offering a uniquely diverse bouquet of design possibilities that is bound to stimulate your design senses. This industry has got a lower entry barrier traditionally which creates a gap between what the consumers desire and what they actually get. Kajaria, as a responsible brand with over 3 decades of experience in manufacturing quality building material product, understands this dilemma perfectly. Coupled with its customer-centric approach, the brand has developed its exclusive range of Kajaria laminates having unique features & designs that will make the product range stand out while catering to the need of end consumers.

Moreover, with an ever-growing network of channel partners & trade associates, the brand's eminence indicates a beautiful-yet-promising future for years to come.

COLLECTION 2021-23

Create a refreshing melange of wonders

BEAUTY IN DIVERSITY

A CANVAS OF LIMITLESS IMAGINATION

Beauty transcends beyond just design and colours. It manifests in the way we touch and feel. At Kajaria Laminates, we understand your amazing journey of creating those beautiful spaces with our extensive-yet-exclusive range of premium-quality interior solutions. Be it surfaces that impart design oriented aesthetics like laminates or functional products like ply-boards, doors etc. that suit your niche requirement, we have an exclusively customized product range that offers enhanced value addition to your interior architecture, every single time.

We truly understand that your interior design is an extension of your personality. Design inspirations are not just based on visual imaginations but have a deep connect with the way you feel as well. Accordingly, one chooses what suits them best. Whether, it's the grains that echoes the spirit of earthly forests or patterns that reflect the art of modern art. Designs resembling textile fabrics to varied stone patterns, the laminates bouquet has everything for those who not only have a bold imagination but also for those who prefer an exquisite collection of solidly bold colours as well. Design explorers who search for expressionism in every interior landscape of their home will surely find a striking note with this diversified offering of ours.

Therefore, at Kajaria Laminates, we have developed an assortment of beautiful designs, finishes and textures for the connoisseur in you. Whatever is your style preference, you can now indulge in our exclusive range of laminates that are available in an array of colours shades & designs. So get ready to step into our world of Beauty in Diversity which we lovingly refer as your Canvas of Limitless Imaginations.

Let's get started!

MAINTENANCE GUIDE

How to Clean & Maintain Laminate Surfaces

From furniture to flooring, laminates are among the most widely used materials in interior decor. In these quick tips to clean laminate surfaces, we cover care and cleaning essentials so that you can keep them beautiful and make them last longer.

Today, laminated finishes are among the most preferred when it comes to furniture, flooring and wall panelling for your living room, bedroom, bathroom or kitchen. Available in a variety of colors and finishes, laminates are inexpensive, durable and also more resistant to heat, impact and stains when compared to more expensive materials. However, like any other material, laminate surfaces are prone to wear and tear due to constant use. Here are some pointers to help you maintain them.

General Tips

- While laminates can take a lot of wear and tear, they can get scratched by sharp objects. So take care not to use any sharp objects or abrasive materials such as steel scrubbers to clean them.
- Laminates generally tend to fade with prolonged exposure to sunlight. Keep laminate furniture away from direct sunlight to prevent discolouration.
- Moisture and dampness will damage laminate surfaces and cause warping. Protect floors and furniture from excess water, even while cleaning.

Laminate floors

Laminate floors look beautiful, but need to be cleaned regularly as dirt from shoes settle on them and make them dull. However, with the right mop, cleaning them is a breeze. There are also specialised solutions available for cleaning such floors.

- A damp (not wet) microfiber mop will not only pick up all the dirt, it will also need less water, which is good, because too much exposure to water can warp the laminate flooring.
- Do not use string mops or sponge mops as they will leave streaky marks and also need more water, which might seep into cracks and ruin the floor eventually.
- It is also not advisable to polish or wax the flooring, as it is not real wood, after all.
- Avoid strong chemical cleaners, bleach, steel wool or scouring pads – the floor will get discoloured or scratched.

Furniture

Regular dusting with a soft cloth is the best way to keep the laminate surface of your furniture clean. For the purpose, use a microfiber cloth or your vacuum cleaner with a soft bristle brush attached to it. Avoid wet wiping – it will leave marks, and the moisture will warp the laminate.

- Fingerprints on laminate can be removed with a soft dry cloth most of the times. For greasy fingerprints, try dampening the same cloth and dry the area soon after.
- For any marks that are visible after dusting, use a soft sponge, slightly dampened. Avoid varnish, wax or polish for laminate furniture.
- Even when you use a mild cleaning solution, avoid applying it to the surface directly- it may stain your furniture. Spray the solution on your cleaning mop or pad and clean with the damp pad.
- Detergent based cleaners can also leave a dull film on your furniture. Never allow water or any solution to sit for long as the laminate may begin to peel off.
- Use mats and coasters to protect furniture surfaces from stains, spills and excess heat.

Laminates in the Kitchen

The shelves in kitchens, particularly Indian kitchens, pick up a lot of grime. However, regular cleaning can keep them sparkling clean and your kitchen hygienic.

- Use a sponge and a solution of warm water and dish wash soap to get clean stubborn greasy spots. A plastic brush should work well for nooks and crannies. Do remember to dry the surface immediately.
- Laminate is non-porous, so dirt and bacteria cannot accumulate on the surface directly, but accompanied by the oily fumes in the kitchen, dirt and bacteria can settle in the seams and corners. Cleaning these parts is important and warm soapy solutions are good for the purpose. Follow with proper rinsing and drying.
- As with flooring, avoid hard scrubbers, dyes or strong chemical cleaners; they will leave scratches on the surface, leaving it prone to stains.

HPL (High Pressure Laminate)

1. Protective overlay for printed decor.
2. Decorative Paper impregnated with melamine resin.
3. Layers of Kraft paper impregnated with phenolic resin.

Protection of Surface

Applications

- Suitable for high traffic public environments: retail, hotel, office, educational institutions, health, etc.
- Suitable for covering vertical surfaces (doors, Wall Panels) as well as horizontal surfaces (worktops, Furniture).
- Suitable for bonding to all type of substrate (wood, metal, mineral, honeycomb, etc.).

Scratch and Impact Protection:

- Don't place lighted cigarettes directly on laminate surface. Knives or other sharp utensils may slice or scratch the surface.
- Don't chop, slice, pound or hammer on any laminate surface. Avoid ironing or placing hot iron on laminate surface.
- Hot cookware should not be placed directly on laminate surface. Heavy blows of hammer or metal may crack the laminate surface.

Ordinary Cleaning:

- In most cases, only cleaning is necessary, damp, non-abrasive cotton cloth and a mild liquid detergent or household cleaner and rinse with clean water.
- Don't flood the laminates since water can be absorbed and results in the substrate to swell.
- Clean with a soft, clean and non-abrasive cotton cloth.

Chemical Damage:

Never use cleaners containing acid, alkali or sodium hypochlorite. These cleaners will mar, etch, corrode and permanently discolour the laminate surface. Also make sure that bottles, rags and other materials contaminated with these cleaners never come in contact with the laminate surface.

DISCLAIMER:

Prices vary with respect to type, finish, thickness, size and colour. Please consult with our branches/dealers/factories before quoting.

Advance notice of intended discontinued items will be informed to our regular customers. Our company shall not be held liable for any consequences resulted from disruption in supply.

High Pressure Laminates are meant for indoor use only. Avoid using on areas exposed to direct sunshine or light reflective areas.

LIMITED WARRANTY:

Kajaria warrants that, under normal use and services, the material and workmanship of its products shall confirm to the standards set forth on the applicable technical data sheet for a period of twelve (12) months from the date of sale to the first consumer purchaser. Dealers and distributors are provided with the technical data sheets, which contain specific standards of performance for the product. In the event that a product does not perform as warranted, the purchaser's sole remedy shall be limited to repair or replacement of all or any part of the product, which is defective, at the manufacturer's sole discretion. This warranty is not transferable, and expires upon resale or transfer by the first consumer purchaser. This warranty shall not apply to defects or damage arising from any of the following: Accidents, abuse or misuse, exposure to extreme temperature, improper fabrication or installation & improper maintenance. No other warranties, expressed or implied, are made. Under no circumstances shall the manufacturer be liable for any loss or damage arising from the purchase, use, or inability to use these products, or for any special, indirect, incidental, or consequential damages. No fabricator, installer, dealer, agent or employee of Kajaria has the authority to modify the obligation or limitation of this warranty.

LIABILITY:

Whereas the products are manufactured to exacting standards, the nature of the application procedure is beyond control. While we are pleased to offer advice, we cannot guarantee the incising results or accept liability, for all information is provided in good faith but without warranty expressed or implied. The liability of the Company is limited to replacement of defective goods only. It is, therefore, necessary that prior to any commercial use you should conduct your own tests to evaluate the efficacy of the product under the particular condition for its intended use.
